

CAPABILITY STATEMENT

Small business and minority-owned engineering firm in Maryland leading the IT industry with proven performance and innovative design, development, and integration services. We lead agile-based digital transformations that deliver sleek, intuitive, user-first solutions.

MODERN & INNOVATIVE SOLUTIONS

AI/ML APPLICATIONS: User-friendly artificial intelligence and machine learning tools like generative AI, large language models (LLMs), AI cybersecurity, and advanced analytics.

SOFTWARE DEVELOPMENT: Customized software for clients, from scratch or established code, that includes enhancing, replatforming, modernization, and/or new features.

DATA SERVICES: Comprehensive big data services for clients to manage, transfer, enhance, and enrich data securely and seamlessly – for actionable insights and real value.

CLOUD COMPUTING: The latest in public and private cloud services, including data migration, data backup/recovery, infrastructure, and AI applications.

DEVSECOPS: Continuously integrated and deployed (CICD) processes, including code scans, cybersecurity scans, fail fast methods, agile based software development, machine learning, and AI-driven operations.

TECHNOLOGY PORTFOLIO

Booker DiMaio uses today's cutting-edge data engineering tools to deliver customized and scalable technology solutions. This suite of technology partners provides added value, operational efficiency, and seamless integration.
